Overview

The Adapter 6500 is a digital message on hold unit designed for analog and KSU-less Phones. This one device provides MOH capability for up to four lines and 50 station sets. Works with all types of phones. The Adapter 6500 is a non-proprietary unit. It plays standard .mp3 audio up to 320 kbps (CD quality.) Messages are loaded via USB cable to internal flash memory.

Features

- Provides MOH for Analog Phones
- Message Loading via USB Connection
- Internal Non-Volatile Flash Memory
- Built-in Monitor Speaker
- LCD Control Panel
- External Memory Slot (SD)

TEHMAs (telephone extension hold music activator)

The Adapter 6500 also includes two THEMAs that provide true “hold button” activation of your hold audio. Phones without a THEMA can place calls on hold by pressing the star button twice then pressing hold. Additional THEMAs sold separately.
